

Hi! I'm George

I have just turned two - I am
looking for a family to adopt me.
Could it be you?

I love playing with my toys ... the more noise they make the better! I also love to sing, my favourite songs are 'incy wincy spider' and the wheels on the bus.' I love having a bath and going swimming - this helps me to stretch and manipulate my body ... I can touch my toes!

This is hard work! I can stay like this for ages!

I like to try and get about and explore - off I go! Although I sometimes find I can get there quicker by rolling over!

**Oh this is interesting
- it feels nice!!**

**What's going on? - I
can hear something in
the next room! I am
waiting to go to nurs-
ery - I go twice a
week.**

**After playing I like
to take a rest - I
find it very soothing
sucking my fingers. I
particularly like the
feel of labels!**

I need a family who will love and understand me and accept me for who I am, and who can give me lots of time and attention. I need to go for a lot of medical appointments and have my medicine regularly. My future seems so uncertain - I need a family who can accept and manage this for me.

I have a younger brother who is being adopted. I hope that I can continue to see him from time to time.

Are you the right family?

We would consider any family who can give George the understanding and care that he needs. Financial support will be available.

Would you like to know more about George?
If the answer is 'yes' or even 'maybe' please ring
us on 020 7520 2881
